

Water

Alvarado Water Treatment Plant -Upgrade and Expansion 73-261.3

Council District: 7

Community Plan: Mission Trails Regional Park, Navajo

Description: This project increases the treatment capacity of the plant from 150 million gallons of water per day (mgd) to 200 mgd and upgrades the existing treatment plant facilities to replace aged equipment and comply with new drinking water regulations. This project is split into multiple construction projects and will be phase funded. The major project components consist of the construction of two new sedimentation basins, rehabilitating the existing 1950 era sedimentation basins, rehabilitating the mechanical equipment and controls on the existing 1950 era filters, ozone generation and treatment facilities, and various site and landscaping improvements.

Justification: The Safe Drinking Water Act, Environmental Protection Agency regulations, and a Department of Health Services Compliance Order dictate the need to upgrade the treatment plant process and equipment. Anticipated future demands within the Alvarado Water Service Area also require the plant to be expanded to 200 mgd. The rehabilitated plant will better utilize the raw water storage in the San Vicente and El Capitan Reservoirs.

Operating Budget Effect: The upgrade from chlorine to ozone as the primary disinfectant will have a significant impact on the electrical and chemical consumption of the plant, an increase of approximately of \$1.6 million annually. The increase in treated water capacity and the technical aspect of the equipment will also impact the cost for maintaining and operating the plant.

Relationship to General and Community Plans: This project is consistent with the Mission Trails Regional Park Plan and the Navajo Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 1999 and is continuing through subsequent phases of work. Construction began on the initial phase of work in Fiscal Year 2004 and is scheduled to be completed in Fiscal Year 2013.

Summary of Project Changes: No changes have been made to this project for Fiscal Year 2008.

Annual Allocation - Air Valve Adjustments and Relocations 73-333.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the raising or rehabilitating of existing air and vacuum release vents and air release valves from below grade to above grade, and enclosing the vents in 3/16-inch steel cylinders mounted on concrete pads.

Justification: Below-grade valves are subject to flooding which could allow for cross-connections and maintenance is easier on above-ground valves.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 Proposed Budget. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - CIP Contingencies 73-331.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the Water Department's Municipal Water Capital Improvements Program contingency needs.

Justification: To provide better project budget control, project contingency needs (except for annual allocation projects) will be met by this annual allocation.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 proposed budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Corrosion Control 73-310.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for renovating or replacing deteriorating corrosion control and monitoring systems throughout the City.

Justification: Deteriorating corrosion control and monitoring systems are in need of rehabilitation. This annual allocation provides for an ongoing program to rehabilitate over 600 existing corrosion protection stations.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocations is reflective of the Fiscal Year 2008 proposed budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Dams and Reservoirs 74-925.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for rehabilitating and reconstructing improvements at reservoirs and dams, such as resurfacing access roads, reconstructing berms, installing lighting around dams, and sandblasting and shotcreting all exposed surfaces of the dams.

Justification: The rehabilitation and reconstruction of access roads and upgrading of berms, lighting, and all exposed surfaces of the dams are necessary to maintain access to and safety in the dam area. These improvements will also serve to satisfy a portion of the Division of Safety of Dams, which is a State requirement.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Freeway Relocation 73-024.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for relocating water lines in conflict with the State Department of Transportation's highway construction projects.

Justification: Waterline relocation is necessitated by the State Department of Transportation's effort to expand the State Highway System. Relocation projects are accomplished in conjunction with highway projects scheduled by the State Department of Transportation.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Pressure Reduction Facility Upgrades 73-900.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for replacing existing pressure reducing stations, or expanding pressure capacities to meet present and future water demands.

Justification: Increasing demands for water throughout the City dictate the need to better control water pressure throughout the City's system. This annual allocation will fund continued replacement and expansion of these facilities.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Standpipe and Reservoir Rehabilitations 73-277.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for reconstructing standpipes and reservoirs to improve operations and extend their useful life.

Justification: Many existing standpipes and reservoirs in the water system have deteriorated to a point where they must be reconstructed or replaced to meet the current Occupational Safety and Health Act and Environmental Protection Agency safety and water quality standards.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Water Main Replacements 73-083.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the replacement of water mains at various locations throughout the City.

Justification: Water mains need to be replaced due to their deteriorated condition or size limitation. The existing cast-iron system is either approaching or has exceeded its expected life of 40 years. Breaks are now occurring at the rate of over 200 annually.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Water Pump Station Rehabilitations 73-263.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for replacing deteriorated pumping equipment and appurtenances or expanding pumping capacities to meet present and future water demands.

Justification: Many existing water pump stations have reached or exceeded their anticipated service life or demands have exceeded their maximum pumping capacity. However, because of the widely varying actual lengths of service life, scheduling for pump station restoration is difficult.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Barrett Reservoir Outlet Tower Upgrade 73-317.0

Council District: None

Community Plan: No Community Planning Area

Description: This project provides for upgrading the electrical system and replacing the outlet tower ladders, valves and platforms.

Justification: The aging outlet tower components are in need of replacement for safety and ease of operation. The electrical system needs to be upgraded to meet current standards, provide better control, and provide safety and better accessibility.

Operating Budget Effect: This project is schedule to be completed in Fiscal Year 2008.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2001 and was completed in Fiscal Year 2006. Construction began in Fiscal Year 2007 and will be completed in Fiscal Year 2008.

Summary of Project Changes: Total estimated project cost decreased by \$2.9 million to \$3.6 million.

Groundwater Asset Development Program 75-932.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for investigation work related to legal, technical, regulatory, and water quality issues; and planning, design, and construction of groundwater facilities to increase the local water supply.

Justification: The City imports 90 percent of its water from the Colorado River and the State Water Project. The City has access to nine under-utilized groundwater assets that could be developed to supply new yield, seasonal storage or carryover storage.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Research, design, and development began in Fiscal Year 2001 and will continue through Fiscal Year 2017. Exploration, design, and construction will be accomplished as specific sub-projects are defined.

Summary of Project Changes: The scope and schedule of this project are still preliminary.

Harbor Drive Pipeline 70-957.0

Council District: 2, 8

Community Plan: Ocean Beach, Old San Diego,
Peninsula, Centre City

Description: This project will replace 1.5 miles of pipeline along Harbor Drive.

Justification: These improvements are necessary to prevent water pipe breaks and to ensure a continuous water supply to the Ocean Beach and Peninsula community planning areas.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is consistent with the affected community planning areas and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Proposed construction would begin in Fiscal Year 2014.

Summary of Project Changes: The scope and schedule of this project are still preliminary. Changes to project cost and schedule reflect changes to initial estimates.

Miramar Pipeline Improvements - Phase III & IV 70-910.5

Community Plan: Mira Mesa

Council District: 5

Description: This project provides for replacing or rehabilitating 26,870 linear feet of existing 51-inch diameter pre-stressed concrete cylinder pipe on Mira Mesa Boulevard between Stadium Street and I-15. A pipeline condition assessment will be performed prior to initiating design.

Justification: These improvements are necessary to prevent water pipe breaks and to assure a continuous water supply to the Mira Mesa Community.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Mira Mesa Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Major pipeline inspections began in Fiscal Year 2005 and are scheduled to be completed in Fiscal Year 2008 following construction of the Black Mountain Road pipeline projects (CIP 70-945.0 and CIP 73-341.0). Miramar pipeline will be reinspected starting in Fiscal Year 2009 and scheduled to be completed in Fiscal Year 2012.

Summary of Project Changes: The total project cost decreased by \$13.7 million due to design scope revisions. This project now includes Phase IV.

Miramar Water Treatment Plant - Upgrade and Expansion 73-284.0

Council District: 5

Community Plan: Scripps Miramar Ranch

Description: This project provides for the upgrades and expansion of the Miramar Water Treatment Plant, including construction of new state-of-the-art filters, new rapid mix and de-aeration facilities, new chlorine and chemical facilities, four new flocculation and sedimentation basins, an ozone structure with generation equipment, site paving, landscaping and a new administration building.

Justification: The Safe Drinking Water Act, mandated by the Environmental Protection Agency, dictates the need to upgrade the existing treatment plant. Also, increasing demands on the plant by the rapidly growing North City area necessitate its expansion. This project is a Department of Health Services compliance order.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 1997 and will continue through subsequent phases of work. Construction began on the initial phase of work in Fiscal Year 2001 and is scheduled to be completed in Fiscal Year 2012.

Summary of Project Changes: \$15.8 million increase in Fiscal Year 2008 budget. Contracts B and C construction are initiating.

Otay Second Pipeline Improvements 73-286.0

Council District: 4, 8

Community Plan: Skyline/Paradise Hills, Southeastern
San Diego

Description: This project provides for evaluating the condition of existing pipelines and for making appropriate upgrades and replacements to the pipeline south of State Route 94.

Justification: This pipeline was originally installed in 1928 and has exceeded its useful life expectancy of 60 years. Breaks in the pipeline have revealed severe pipe corrosion in certain locations.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Skyline/Paradise Hills and Southeastern San Diego Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Engineering studies and design began in Fiscal Year 1999 and were completed in Fiscal Year 2007. Construction will begin in Fiscal Year 2008 and is scheduled to be completed in Fiscal Year 2015. However, this scheduling is contingent on the assessed condition of the pipeline.

Summary of Project Changes: It is proposed to decrease the total project cost to \$18.8 million in the Water Replacement funding to reflect changes to the total cost estimates and project scope.

Otay Water Treatment Plant - Upgrade and Expansion 73-285.0

Council District: None

Community Plan: No Community Planning Area

Description: This project provides for upgrading the treatment processes at the Otay Water Treatment Plant to comply with the Safe Drinking Water Act standards.

Justification: New standards required by the Safe Drinking Water Act dictate the need to upgrade the existing water treatment plant standards.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2001 and will continue through subsequent phases of work. Construction will begin on the initial phase of work in Fiscal Year 2009 and is scheduled to be completed in Fiscal Year 2017.

Summary of Project Changes: The scope and schedule of this project are still preliminary. Changes to project cost and schedule reflect changes to initial estimates.

Program Management 73-347.1**

Council District: Citywide

Community Plan: Citywide

Description: This project provides for activities performed by consultants relating to the preparation and management of the Water Department's Capital Improvements Program, value engineering, and program management. This project also provides for specialized studies and activities relating to financing, organization and management structure, scheduling, engineering, cost estimation, bond funding, and project impacts on operations and maintenance.

Justification: These activities are required to plan and continue the Water Department Capital Improvements Program, which is in excess of \$1 billion, in conformance with the Strategic Plan for Water Supply.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Summary of Project Changes: This project replaces CIP 73-347.0, due to end of contract with previous vendor. A new CIP program management consultant will be selected via the competitive bid process.

Rancho Bernardo Reservoir Rehabilitation 73-328.0

Council District: 5

Community Plan: Rancho Bernardo

Description: This project will rehabilitate the ten million gallon concrete reservoir to better meet operational needs and seismic codes.

Justification: This rehabilitation project will extend the service life of the existing reservoir and reduce the maintenance required to keep it in safe operating condition.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Rancho Bernardo Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2000 and was completed in Fiscal Year 2007. Construction is scheduled to begin in Fiscal Year 2008.

Summary of Project Changes: Changes to project cost and schedule reflect changes to initial estimates.

Rancho Penasquitos Pump Station 73-342.0

Council District: 1, 5

Community Plan: Mira Mesa, Rancho Penasquitos

Description: This project provides for the construction of a new water pump station.

Justification: This plant is required to deliver treated water from the Miramar Water Treatment Plant to the service area. This delivery of Miramar Water Treatment Plant water will reduce dependency on imported filtered water and will support future development and growth.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the Rancho Penasquitos and Mira Mesa Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The planning phase started in Fiscal Year 2001. The project was then put on hold due to budget issues. Presently, the project will be designed and built under a Design-Build delivery process. It is estimated that the Design-Build project will start in Fiscal Year 2008 and will be completed in Fiscal Year 2010.

Summary of Project Changes: No significant changes.

San Diego 17 Flow Control Facility and Pump Station 73-314.0

Council District: 3, 7

Community Plan: Mid-City, Navajo, College Area

Description: This project provides for the installation of a new water pump station at the Alvarado Water Treatment Plant to pump potable water into the County Water Authority's pipeline.

Justification: This pump station will supply the Mid-City Pipeline project, serving the College Area and Mid-City communities.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is consistent with the College Area, Mid-City and Navajo Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 1999, it is 90 percent completed and is scheduled to be completed in Fiscal Year 2008. Construction will begin in Fiscal Year 2009 and scheduled to be completed in Fiscal Year 2011.

Summary of Project Changes: The total estimated project cost reflects an increase of \$7.6 million in Water Replacement funding to reflect changes to the initial cost estimates and project scope.

**Telemetry Control Systems - SCADA - Phase II 73-348.0
Community Plan: Citywide**

Council District: Citywide

Description: This is phase II of a two-phase program to install a modern Supervisory Control and Data Acquisition (SCADA) system. The SCADA system monitors and controls all critical water distribution sites. Phase I included the central control and operations component as well as Remote Control Panels (RCPs) at 42 of the water distribution sites. Due to additional work that had been identified, phase II was divided into five parts, phases IIa, IIb, IIc, IId, and IIe. Phase IIa included the installation of RCPs to control 60 additional water distribution sites. Phase IIb included remediation work at 36 existing sites. Phase IIc included installation of RCPs at 29 large meter sites. Phase IId included installation of RCPs at 72 sites, an operating efficiency assessment, a communication network upgrade, and intranet functionality for data access. Phase IIe included the work identified in the Water Operations Optimization plan.

Justification: Although electronic monitoring systems are currently in operation, City crews have no ability to remotely control the water system, and crews must still personally visit various system locations to turn valves and control pumps manually in emergencies. With recent technological advances, new telemetry installations can provide versatility and flexibility. The new SCADA system will upgrade and centralize all telemetry controls into one location to facilitate the control, monitoring and tracking of data. Improved service and quick emergency control over the entire water system will be the ultimate result.

Operating Budget Effect: Design was completed in Fiscal Year 2001.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2000 and was completed in Fiscal Year 2001. Construction began in Fiscal Year 2000 and is scheduled to be completed in Fiscal Year 2009.

Summary of Project Changes: Project deferred to Fiscal Year 2009.

Reclaimed Water

Annual Allocation - CIP Contingencies - Reclaimed Water Distribution System/RWDS 70-942.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the Water Department's Reclaimed Water Capital Improvements Program project contingency needs.

Justification: To provide better project budget control, project contingency needs (except for annual allocation projects) will be met by this annual allocation.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Water

Reclaimed Water

North City Reclamation System 70-954.0

Council District: 1

Community Plan: Rancho Penasquitos

Description: This project provides for extending the recycled water system within the northern areas of the City, including a pipeline that will service the Olivenhain Municipal Water District. There are potential Proposition 50 grant funds in the future for identified facilities.

Justification: This system of recycled water pipelines, reservoirs, and pump stations will serve the northern portions of the City, including two golf courses at Black Mountain Ranch, and the Olivenhain Municipal Water District.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Rancho Penasquitos Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Planning, design and construction began in Fiscal Year 2001 and will continue throughout the life of the project as facility needs are identified.
